

I cannot stress enough to you how K-Love is an important part of our community. It provides positive music in a stress-filled world. It is listener-supported and having it available when I travel to various areas throughout the state, nation, and world is very important. People are supporting this station financially and I know it is important to them as well. There are lots of other secular stations available but only a few with positive contemporary Christian music. Please don't limit our options further. This station has encouraged me and helped me get through some difficult times in my life by giving me hope in a hopeless situation. It put a song in my heart. I'm sure many others could give you testimonials as well. There are many people who haven't heard the positive message of K-love yet that will need to sometime in their life. Please make sure it is available to give them hope as well. There's nothing quite like K-Love. "I Can Only Imagine What it will be like. . . " Thank you.  
:o)
